	<p>Coaxial cables, connectors, adapters, terminators, attenuators, directional couplers, splitters, surge protectors, grounding and weatherproofing</p>		<p>Fiber optic attenuators, jumper assemblies, multi-fiber cables, panels & enclosures, splitters & connectors, supplies, testing</p>
	<p>Test equipment for analyzing cable & antennas, spectrum, base stations, CPRI, PIM, network performance, interference, and fiber optics</p>		<p>Pole radomes, architectural screens, chimneys, antenna boxes, water tanks & silos, equipment enclosures, church and tower panels</p>
	<p>True interoperability between voice, data, and radio equipment/technology in a 5-minute setup, for public safety & disaster recovery</p>		<p>Public Safety sirens, speakers, Phazer LED lightbars, ULB28 Phantom lightbars, and LED/Strobe remote kits</p>
	<p>AvComm Division - land mobile test sets including P25, MotoTurbo, NXDN and DMR. Model 8800SX, Model 3920B</p>		<p>Antenna alignment tools, microwave path alignment tools, and antenna monitoring systems</p>
	<p>Wireless Division - Fiber DAS Systems, Public Safety Off Air Repeaters, and Cellular Off Air Repeaters</p>		<p>D3M is a secure web app designed to help your team collaborate on two-way radio projects from inception to deployment and post-sales.</p>
	<p>Mobile and fixed station antenna products including VHF/UHF, 700-900MHz, NMO mounts, telematics-GPS, DAS, 4G/LTE and portables</p>		<p>Base & directional antennas, cavity filters, combiners, duplexers, receiver multicouplers, isolators, intermod panels, and wattmeters</p>
	<p>VHF/UHF Land Mobile Radios including analog, P25 & NXDN portables, mobiles, and repeaters. IP Radio Systems</p>		<p>Guyed, self support and monopole towers. Brand names include Valmont, Microflect and PiRod. Also a leader in tower re-analysis</p>
